

Classic Crystal Glow

A nod to minimalism

This car fragrance in the form of a **classy pendant** with a decorative lacework is made of wood that delights with its aesthetic values, while acting as a perfect natural fragrance carrier.

When designing the Premium Collection fragrance line, we decided to work on **first-class, exclusive perfumes**. These inspirations translated into special, rich and long-lasting scents that provide a unique experience to every driver and passenger.

Experience an exquisite CRYSTAL GLOW fragrance: the olfactory tale that Crystal Glow tells begins with exotic **saffron** wrapped in **jasmine**. The heart is warmed by deep accords of **amber wood** and **ambergris**. The base is created by a dash of balsamic **resin** and majestic **cedarwood**.

- **minimalistic design**
elegant pendant made of FSC-certified wood
- **Neutra Boost®**
long-term, effective neutralisation of unpleasant odours
- **unique and long-lasting fragrances**
inspired by exclusive perfumes
